Res. Pop. Ser. – Residential Population Served
GPCD – Gallons per Capita per Day
Res. Dem. – Residential Demand-Average day
Oth. Dem. – Other Demand-Average day
Tot. Dem. – Total Demand-average day
Ex. Cap. – Existing Capacity (Permitted Average day)
Pl. Cap. – Planned Capacity (Average day)

[1] Present Year Population figures include only those people living in Existing/Final Planning Area
[2] Priority Year Population figures assume total buildout of Existing & Priority Service Areas
[3] Future Year Population figures assume total buildout of Existing, Priority, & Future Service Areas

*See Appendix 3 Method for Projecting Water Supply and Sewerage Demands and qualifiers for using the projections. Projected growth described in the Priority Planning and Future Planning sections of this Table may depend on the acquisition and development of new water sources, the availability of which is not guaranteed.
