Notice of Decision

Case # ZA-982
Permit # 05-4019

Variance Request: For a variance from the required minimum setback of 20 feet to 14 feet for an attached garage at 7 Shamrock Circle, Westminster, MD in Election District 06, by Byron Haschert.

Basis for Variance: § 223-66, § 223-178 and § 223-181 of the Carroll County Code of Public Local Laws and Ordinances.

Decision: Approved.

Basis for Decision:
It is the opinion of the Zoning Administrator that approval of the variance request will not:

- Adversely affect the public health, safety, security, morals, or general welfare.
- Result in dangerous traffic conditions or jeopardize the lives or property of people living in the neighborhood.

In making this determination, the Zoning Administrator cannot answer in the affirmative to the criteria provided in Section 223-191 of the Carroll County Code that:

- There would be a detrimental effect on the people working or residing in the area
- There would a negative impact on the orderly growth of the community
- There would be a detrimental effect on the peaceful enjoyment of people in their homes.
- That the use would have a negative effect on the conservation of property values.
- That there would be any effect from odors, dust, gas, smoke, fumes, vibrations, glare, and noise upon surrounding property values.

The applicant wishes to extend the garage on the driveway side of the house. Locating it elsewhere on the property is restricted by the well and septic field locations, in addition to the practicality of placing it at the proposed location. Many other homes in the Aspen Run subdivision have similar attached garages. There were no protestants in attendance at the hearing.

Zoning Administrator
