Office of Zoning Administration
Neil M. Ridgely
Zoning Administrator

Notice of Decision

Case # ZA-945
Permit # 05-2157

Variance Request: For a variance from the required minimum setback of 20 feet to 11 feet to enclose a portion of the rear deck at 5324 Pommel Drive, Mt. Airy, MD in Election District 09 by Scott and Cindy Morrison.

Basis for Variance: § 223-66 and § 223-181 of the Carroll County Code of Public Local Laws and Ordinances.

Decision: Approved.

Basis for Decision:
It is the opinion of the Zoning Administrator that approval of the variance request will not:

- Adversely affect the public health, safety, security, morals, or general welfare.
- Result in dangerous traffic conditions or jeopardize the lives or property of people living in the neighborhood.

In making this determination, the Zoning Administrator cannot answer in the affirmative to the criteria provided in Section 223-191 of the Carroll County Code that:

- There would be a detrimental effect on the people working or residing in the area
- There would a negative impact on the orderly growth of the community
- There would be a detrimental effect on the peaceful enjoyment of people in their homes.
- That the use would have a negative effect on the conservation of property values.
- That there would be any effect from odors, dust, gas, smoke, fumes, vibrations, glare, and noise upon surrounding property values.

The applicant appeared with their contractor, Mr. Kirk Brown of Blur Ridge Floors to explain that the existing deck on the home sits on the South side and is consequently very hot to sit out on. The lot is pie shaped so it is not possible to place the addition on either side. The well location in the front of the house precludes locating the addition there. There are many similar additions throughout the neighborhood. The only logical place to put the addition is to the rear, utilizing the existing porch area. There were no protestants to the variance present at the hearing, nor were there any protestant communications in the file.

18 October 2005

Neil M. Ridgely
Zoning Administrator

Per Section 223-182 or the Carroll County Code of Public Local Laws and Ordinances, appeals of this decision must be made within 30 days of the date of the decision to the Board of Zoning Appeals pursuant to Section 223-188 of the Carroll County Code. Unless timely appealed, parties may not thereafter contest the Zoning Administrator's decision.
