Capital Budget Revenues

This chart shows the capital budget by revenue source for fiscal years 1999 to 2008.

From Operating represents current revenues from local sources transferred to the Capital Fund, including transfer from the General Fund, agriculture transfer tax, impact fees and enterprise funds.

State & Federal includes funds from sources such as the State School Construction Program, State Program Open Space, Maryland and Federal Aviation Administration and State Highway Administration.

Bonds include new and reallocated general obligation bonds.

Direct Capital Revenues include funds earmarked by the Commissioners for use in the Capital Fund. These revenues are appropriated directly to the Capital Fund rather than being transferred from the General Fund. Local income tax revenue collected, approximately 9.1%, is appropriated for school construction. 3% of the real property tax revenue is dedicated to Roads projects and Agriculture Preservation and a portion will be used to pay debt service in the General Fund for Agriculture Preservation. In FY 08 an additional \$19 million in real property tax is appropriated directly to various one-time expenditures, a reduction from the FY 06 and FY 07 appropriations of \$31 million and \$25 million, respectively.

Other consists of revenues such as grants, developer contributions and private and community contributions.
