Entrance - Northern Landfill

Deborah Effingham, Senior Budget Analyst (410) 386-2082

Proj. #

This project provides planned funding for a new entrance to Route 140 to improve safety for all in-bound and out-bound vehicles. The project also includes an improved internal road system, new scales and renovated landfill office and recycling facilities. The improved internal road system and new scales would further enhance the safe operation of the landfill by separating large commercial truck traffic from residential drop-off operations.

Hoods Mill Remediation

Deborah Effingham, Senior Budget Analyst (410) 386-2082

6520

This existing project provides planned funding for the installation of equipment to help control the movement and collection of landfill gases, called methane, at Hoods Mill landfill. Methane is a landfill emission that is regulated by the Clean Air Act of 1992.

Northern Landfill Cell 3

Deborah Effingham, Senior Budget Analyst (410) 386-2082

6522

This project provides funding for the construction of cell 3 at Northern Landfill. The Northern Landfill is presently the only County-operated landfill within Carroll County. The landfill is being developed in a series of five cells. Construction of cell 3 began in FY 07 and is scheduled to be operational by FY 08.

Operating impacts: includes leachate treatment
