

Overview of Public Works CIP

The Public Works FY 10–15 Preliminary Recommended CIP includes two separate sections: Roads and Bridges. In recent years only the Board of Education and Conservation CIP exceeded the Public Works CIP in the amount of funding.

Funding is included for a number of road construction projects. These roads are intended to reduce traffic on congested State routes and intersections by providing local traffic alternatives. Projects included in the CIP are the Georgetown Boulevard extension, Market Street extension, Ridge Road Improvements, and Londontown Boulevard Improvements.

Approximately \$8.5 million is in the FY 10 Preliminary Recommended CIP for Overlays, Low Volume Road Improvements and Neighborhood Overlays to maintain roads throughout the County. The recommendation also includes on-going bridge maintenance and replacement.

For additional information on these or other Public Works projects please refer to the individual project pages.
