The Carroll County Septage Enterprise Facility provides septage waste disposal services. The fund accounts for the operations of the treatment facilities. The principal operating revenues are charges to customers for services. Sources of Funding are described below:

Septage Processing Fees – Fees charged to commercial haulers to support the operations and maintenance costs for the Septage Treatment Facility at the City of Westminster Wastewater Treatment Plant. Fees are based on actual gallons received from haulers at \$.055 per gallon. The 45.34% decrease in septage processing fees is primarily due to reducing the estimated number of gallons of leachate to be treated from landfill cell #3.

Interest – Interest earned on cash investments made from the septage facility enterprise fund. The Department of the Comptroller invests the cash according to the Carroll County investment policy.
