The Carroll County Septage Enterprise Facility provides septage waste disposal services. The fund accounts for the operations of the treatment facilities. The principal operating revenues are charges to customers for services. Sources of Funding are described below:

Septage Processing Fees – Fees charged to commercial haulers to support the operations and maintenance costs for the Septage Treatment Facility at the City of Westminster Wastewater Treatment Plant. Fees are based on actual gallons received from haulers at \$.055 per gallon.

Interest – Interest earned on cash investments made from the septage facility enterprise fund. The Department of the Comptroller invests the cash according to the Carroll County investment policy.

Mission

To assure this facility is operated in a cost effective manner while generating the necessary revenues to cover the cost of operations.

Description

The funds in this budget support the operations and maintenance costs for the Septage Treatment Facility at the Westminster Wastewater Treatment Plant. The City of Westminster operates the facility.

The City documents costs incurred and usage by the various haulers and reports this information to the County. The County reimburses the City and then bills the individual haulers. Since 2003 the haulers' cost per gallon remains \$.055.

The facility is available five and one half days per week. In emergency situations septage can be taken to the Freedom Wastewater Treatment Plant. The Septage Treatment Plant was built in response to a mandate to cease land application of septage.

Program Highlights

Rebuilt compressor used in odor control.

Budget Changes

- The 100.00% decrease in capital outlay is due to a one-time purchase of a replacement compressor for odor control in FY 10.
- The 245.75% increase in contingency in FY 11 is due to a increase in Estimated Revenues from FY 10.
