Judging Criteria

Please refer to the following questions and provide a detailed response to those questions that are applicable.

1. Describe the effort, including how the effort was conceived and implemented and its environmental benefits?
2. To what degree does the accomplishment influence positive changes that may have a beneficial effect on the environment at the local, state and/or national level?
3. How does the endeavor promote individual and/or community leadership in preserving and sustaining environmental resources?
4. What, if any, are the educational merits of the program or project?
5. How does the project extend into a novel or neglected area of environmental protection, conservation or management?
6. Please list any other pertinent information here that was not previously addressed?
