Gentlemen:

Please accept this letter as certification that I/We assume total responsibility for erecting an "enclosure" to surround our swimming pool located at:

(address): _____.

I/We herewith relieve (pool contractor) _____ of this fence responsibility.

The definition of a swimming pool in Appendix G, Section AG105 of the 2006 IRC shall be amended to read:

Swimming Pool: Any structure intended for swimming or recreational bathing that contains water over 24 inches deep. This includes in-ground, above-ground and on-ground swimming pools, hot tubs, and spas.

We will be using these definitions plus the requirements in Appendix G of the 2006 IRC for private swimming pools as indicated in the attached sheet. Please keep these regulations for your records and return this signed copy to the permit office at time of application.

I/We agree to comply with the IRC, Appendix G.

NOTE:

I/We am/are aware that this "enclosure must be erected before FINAL building inspection can be made. I/We will notify the pool contractor when enclosure is completed so that they may request FINAL Building Inspection and obtain the Use and Occupancy Permit.

Barrier must be in place BEFORE the water is put in the POOL. A temporary barrier may be acceptable when it is necessary to place water in pool before pool is completed. Please contact the Inspector for approval of any temporary barriers.

I/We am/are aware that to "Use and Occupy" before a Use and Occupancy Permit is issued is in direct violation of the Carroll County Building Code. The Code, Article II, Section 118.0 clearly states the requirements for a Use and Occupancy. Article VI defines the penalty for code violators to be five hundred dollars (\$500.00) per day and/or imprisonment of 30 days with each day the violation continues considered a separate offense.
