

# Edgewood Subdivision Stormwater Management Facility

---

## LOCATION

The Edgewood stormwater management facility is an existing facility located in the Liberty Reservoir Watershed. The pond should be functioning as stormwater control for the subdivision that is located at the intersection of Caren Drive and Cecil Way.

## DESCRIPTION

Due to the current condition of the pond and its outfall structure, the County is looking at retrofitting the facility to bring it up to current standards thereby ensuring that the facility is capturing all of the drainage area intended to drain into the facility.

## PROJECT ENGINEER

- CLSI

## CONTRACTOR

- C.J. Miller, Inc.

## PROJECT BUDGET

- Engineering - \$26,991.30
- Construction- \$225,000.00

## PROJECT TIMELINE

- Construction will begin Spring of 2010.
- Construction was completed July 2010.

## UPDATES

### July 2010

The site has been stabilized. Sediment control measures will be removed when a 2" stand of grass is established.

### April 2010

Construction began on the facility and sediment and erosion control measures are being put in place.

### September 2009

- White Pine Construction was selected to cut and clear the trees that were growing in the facility. This has been completed and CLSI is currently working on a design.

Construction is complete and the site has been stabilized.
