Cellular and Voice over Internet Protocol (VoIP) Telephone Number Registration

About Carroll County's Emergency Notification System (ENS)

Carroll County's emergency notification system, sometimes referred to as *Reverse-911*® allows the County to notify residents and businesses by telephone in the event of an emergency or public awareness matter, such as hazardous materials incidents, missing person's alerts, water contaminations, natural disasters, and evacuations.

The system operator will identify the affected neighborhood or region within the county and record a message describing the situation and any protective actions residents should take. The system will automatically call listed and unlisted telephone numbers within the affected area and deliver the recorded message.

Sign Up for Cellular or Voice over Internet Protocol (VoIP) Service

Cellular and Voice over Internet Protocol (VoIP) phone numbers are not included in the ENS database. If you are using either of these telephone services as your primary home telephone number for your residence or business (which must be located in Carroll County, Maryland) you must register your number with us by using this form. Please do not complete this form unless your primary contact telephone number is either cellular or VoIP based.

You must enter a valid address within the boundaries of Carroll County, Maryland to be eligible for the service. The county may contact you annually via your email address and/or your telephone number to determine if your phone information is still valid. If the phone number is not confirmed it will be removed from the database

Name: _____	Is this a business?	Yes ___	No ___
Primary Cellular or VoIP Telephone Number (include area code): _____			
House Number: _____	Street Name: _____	City: _____	
Zip code: _____	Email: _____
