

## WESTMINSTER COMMUNITY POND

Located at the intersection of Littlestown Pike (Route 97 North) and Route 140 West, this park is famous for its ducks and geese. Always a favorite with the young children, many adults also enjoy the peace and quiet of this small park and like watching the waterfowl. But please don't feed the ducks and geese – bread is not good for them or the water quality at the pond.

Acres: 33.7
