

# How Carroll County Landfill Manages Yard Trimmings

Yard trimmings are accepted at the County Landfills. If you choose to bring yard trimmings to the landfill, it is preferred that they be brought in loose or in paper lawn bags. Acceptable wood trimmings not to exceed 8' in length and 4" in diameter. **Plastic bags are prohibited at the yard trim area.**

The wood trimmings are chipped into mulch and the grass and leaves are composted. The mulch and compost are available to County residents at no charge.

Come prepared to self-load and wear appropriate clothes.
