## Water Main Valve Replacements Scheduled

Sykesville, MD, September 23, 2015 – On Wednesday September 30<sup>th</sup>, the Carroll County Bureau of Utilities will be replacing and installing two 8-inch water valves at the intersection of Caren Drive and Courtland Drive in the Carroll Square subdivision. Water service will be turned off starting at approximately 8:00 a.m. and remain off for several hours until work is complete.

Approximately 40 homes located on Courtland Drive, Crossway Court, and Caren Drive will be without water service during construction. Only residents who receive notices placed on the door will be affected.

When service is restored residents may experience cloudy water lasting up to an hour. Turning the cold water tap on and running water for several minutes will clear the lines. It is advisable to refrain from using high water volume appliances such as washing machines, dishwashers, etc., during periods of cloudy water or low pressure.
