Carroll County Emergency Management offers the following safety tips for when temperatures and humidity are high:

- Slow down. Strenuous activities should be reduced or rescheduled for the coolest times of day.
- Wear loose, lightweight, and light colored clothing.
- Eat less protein and more fruits and vegetables, and drink plenty of water.
- Stay in air-conditioned buildings or rooms, and limit time outside if possible.
- Check up on neighbors who may be more vulnerable to hot weather.
- NEVER leave a child, pet, or elderly person alone in a car, even for a minute. This can quickly cause heatstroke and even death. If you see a child, elderly person, or pet alone in a car, call 911.
