July 12, 2016

The Carroll County Health Department is asking area residents for help in finding a dog that bit a person around 4:00 PM on Gillis Road in Mount Airy on July 11, 2016. The dog was described as being a standard black and tan German Shepard. According to the Health Department, it is likely that the victim of the attack will be treated with a series of post-exposure rabies shots if the dog has not been found and verified to be in good health by the morning of July 21, 2016.

If you have any information that may help locate this dog or its owner, please contact the Carroll County Health Department at (410) 876-1884 or the Carroll County Humane Society at (410) 848-4810.

Thank you for your assistance.
