Emerald Drive Water Service Disruption Scheduled for Valve Repair

Sykesville, MD, February 26, 2016 – On Wednesday March 2nd the Carroll County Bureau of Utilities is scheduled to turn water service off to repair a water blow-off valve located on Emerald Drive in Sykesville.

Approximately 35 homes on Emerald Drive will be without water service for several hours while the work is being done. Service is expected to be turned off at approximately 8:00 am and remain off until the repair is complete.

Once service is restored customers may experience some brown or cloudy water. Turning the cold water tap on at the highest elevation of the structure/home and running water for several minutes will clear the lines. It is advisable to refrain from using high water volume appliances such as washing machines, dishwashers, etc., during periods of cloudy water or low pressure.
