**Emergency Water Service Disruption in Eldersburg area**

**Eldersburg, MD, September 16, 2016** - Carroll County Bureau of Utilities is shutting down water service today, September 16, 2016, at 2:00 pm to do an emergency repair to a leaking 6-inch water main. The 6-inch water main is located on Cimarron Place off of Tulsa Road.

Eight homes located on Cimarron Place will be without water service for several hours while emergency crews work to repair the water main.

We anticipate water service to be restored between 8pm and 10pm barring any unforeseen circumstances.

Once full service is restored residents may experience cloudy water lasting up to an hour. Turning the cold water tap on and running water for several minutes will clear the lines. It is advisable to refrain from using high water volume appliances such as washing machines, dishwashers, etc., during periods of cloudy water or low pressure.
