Freedom District Water Plant Valve Repair Scheduled

Sykesville, MD, February 17, 2016 – On Thursday February 25th the Carroll County Bureau of Utilities is scheduled to replace a water main valve on one of the main pumps to the treatment plant.

The repair will take place between 8:00 am and 11:00 am. Residents will have water service but may experience a temporary decrease in water pressure while the repair is being made. Residents are advised to contact the Bureau of Utilities office at 410-386-2164 if they experience a loss of water or problems other than low pressure.

When repairs are complete residents may experience cloudy water lasting up to an hour. Turning the cold water tap on and running water for several minutes will clear the lines. It is advisable to refrain from using high water volume appliances such as washing machines, dishwashers, etc., during periods of cloudy water or low pressure.
