

## REVISED 11/13/09

### H1N1 (SWINE FLU) MASS VACCINATION CLINIC (MVC) SCHEDULE FOR THOSE INDIVIDUALS IN THE PRIORITY GROUP\*

**\*SUBJECT TO VACCINE AVAILABILITY\***

Changes to these dates and times will be posted on the  
Carroll County Health Department's website at  
[www.carrollhealthdepartment.dhmd.gov](http://www.carrollhealthdepartment.dhmd.gov) and the Flu Hotline 410-876-3003

Before going to the MVC, check the website and/or call the Flu Hotline  
as the clinic schedule is subject to change

These clinics are for the PRIORITY GROUPS recommended by the Centers for Disease Control (CDC). Currently, there is a limited supply of vaccine and the CDC recommends that the priority groups receive the vaccine FIRST. These individuals are found to be at greatest risk for complications from H1N1:

- Pregnant women
- Household contacts and caregivers for children younger than 6 months of age
- Healthcare and emergency medical services personnel
- Children and young adults aged 6 months to 24 years
- Persons aged 25 through 64 with health conditions that place them at greater risk of medical complications from influenza

Again, the above priority groups will receive the vaccine FIRST. After these priority groups have been vaccinated, the Carroll County Health Department will schedule H1N1 vaccination clinics in the county so that ALL residents can receive the vaccine if they so wish. The Carroll County Health Department is following the recommendations set forth by the Centers for Disease Control.

DATE	TIME	LOCATION
