

REVISED 11/19/09

H1N1 (SWINE FLU) MASS VACCINATION CLINIC (MVC) SCHEDULE FOR THOSE INDIVIDUALS IN THE PRIORITY GROUP*

SUBJECT TO VACCINE AVAILABILITY

Changes to these dates and times will be posted on the
Carroll County Health Department's website at
www.carrollhealthdepartment.dhmh.md.gov and the Flu Hotline [410-876-3003](tel:410-876-3003)

Before going to the MVC, check the website and/or call the Flu Hotline
as the clinic schedule is subject to change

These clinics are for the PRIORITY GROUPS recommended by the Centers for Disease Control (CDC). Currently, there is a limited supply of vaccine and the CDC recommends that the priority groups receive the vaccine FIRST. These individuals are found to be at greatest risk for complications from H1N1:

- Pregnant women
- Household contacts and caregivers for children younger than 6 months of age
- Healthcare and emergency medical services personnel
- Children and young adults aged 6 months to 24 years
- Persons aged 25 through 64 with health conditions that place them at greater risk of medical complications from influenza

Again, the above priority groups will receive the vaccine FIRST. After these priority groups have been vaccinated, the Carroll County Health Department will schedule H1N1 vaccination clinics in the county so that ALL residents can receive the vaccine if they so wish. The Carroll County Health Department is following the recommendations set forth by the Centers for Disease Control.

DATE	TIME	LOCATION
Saturday, November 21, 2009 (Injections only)	9-4pm (Subject to vaccine availability)	Century High School 355 Ronsdale Road Sykesville
