

Langdon Property

Location

The Langdon project is located in Westminster adjacent to Westminster Avenue. This site is in the Double Pipe Creek watershed.

Description

The facility will treat a total of 181 acres of urban drainage that currently flows untreated into the existing stream channel. The project will reduce the non-point source pollution entering the Double Pipe Creek and Chesapeake Bay watersheds and alleviate current flooding issues.

Project Engineer

CLSI, Inc.

Contractor

TBD

Project Budget

Engineering: \$56,406

Project Timeline

The project is currently in the engineering stage with construction anticipated for fall 2017.

Updates

BRM was awarded a State Highway Administration (SHA) grant for \$979,941.00. A kick-off meeting is scheduled for 2/14.
