

Small Crossing/Savannah Estates

Location

The Small Crossing/Savannah Estates project is located off of Upper Beckleystown Road, Hampstead, MD 21074 in the Prettyboy Reservoir watershed.

Description

The project combine the Savannah Estates and Smalls Crossing stormwater management facilities into one facility. Work will be done to improve the current condition of the facility to better convey stormwater in the drainage area, while bringing the facility up to current state and County stormwater management standards.

Project Engineer

EA Engineering, Inc.

Contractor

TBH, Inc.

Project Budget

\$329,510.00

Project Timeline

The project is anticipated to begin in the spring of 2017.

Updates

The County and the Town of Hampstead are working with the local Homeowners' Associations to finalize the details of the property ownership.
